

SOLUTION ARCHITECT

Mackevision Medien Design GmbH is one of the global market leaders in Computer Generated Imagery (CGI.) It provides data-based 3D visualization, animation and visual effects. The company designs and produces image and film material along with interactive applications with high-end quality. It also develops technological solutions for image creation and supports the entire CGI process from data preparation to the creative design to the final product. The international team supports major brands, middle-sized companies and their agencies. Mackevision was founded in 1994 and has been part of Accenture Interactive since 2018.

RESPONSIBILITIES

- Create and integrate innovative and market-relevant solutions concerning CGI visualization for customers in the industrial sector (automotive, industrial equipment, consumer goods etc.)
- Translate complex functional, technical and business requirements into architectural designs in this context
- Develop a comprehensive solution concept in consultation with our technical experts and partners
- Actively support sales projects with your professional expertise

QUALIFICATIONS

- Degree in media economics, computer science, industrial engineering or a comparable qualification
- Project experience in the execution of complex solutions with a high CGI content
- Solid fundamental IT knowledge and experience with software projects
- Several years of professional experience in the above-mentioned areas
- Very good knowledge of German and English

WHAT WE OFFER

- A motivated and friendly team
- An interesting, independent and varied job
- Opportunity to actively participate in the development of a young and dynamic company
- Subsidy for company pension schemes, public transport and parking
- Extensive further training offers
